Cambridge Test of Mathematics for University Admission (CTMUA) Explanation of Results

Results for CTMUA are reported on a scale that runs from 1 (low) to 9 (high), with scores being reported to one decimal place. Candidates who do not respond to any items receive a score of 0.

The scale has been designed so that approximately one third of candidates will achieve overall scores higher than 6.5. High scores are capped at 9.0.

The distribution of the 2019 CTMUA scores, overall and for Papers 1 and 2 are shown below.

Overall score distribution
Paper 1 score distribution
